This included minutes of the April 13, 2026 meeting and the following checks: Water 7175-7180, Wastewater 3680-3685, Street 4634-4639, General 22284-22292, Pk 1275-1276, and Payroll 11346-11370.

The board asked Casey what he would charge to install the tubes to help this situation. Alderman Justus made a motion to hire Casey to complete this task at a cost not to exceed \$2200. Seconded by Alderman Zieber. Motion carried.

The board read an email with concerns about Kennedy Drive needing gravel. City Clerk will send the complainant an email stating they were going to attend the Camden Township meeting to discuss some of the gravel road issue and would get him an answer after the meeting.

John gave his report on items they have completed since the last meeting: They have been working on meters, fixing meters, jetted some sewers, fixed the manhole on Grant Street and Hull and Taylor, got bathroom ready at Bartlett Park, mowed, sprayed frog pond and the lagoons.

Casey and Steve reported we started taking water from the GNWWW line last week, but had to stop because of a break near the main connection point. Steve reported he was able to start the process again at 4:00 pm today and still trying to find out where our overflow point is at the small tower. There was discussion about asking DNR to leave our plant alone so we can use it for back up in case of a large break again. City Clerk reported we still have an outstanding report due at the end of each month for DNR and another report due on June 12, that is going to need assistance from the board.

Steve mentioned that we need to contact Kerri at MAP to assist with our lines, because our current mapping system is not correct and she is also able to help with rate studies. City Clerk will contact her and invite her to a meeting.
